

To Whom it may concern,

I respectfully urge the FCC to reject the NAB's petition 04-160. Satellite radio is a pay for use service that must not be censored by governmental entities. Not unlike pay for use television, it is my choice as to which medium I get my information from. Satellite radio provides a unique service that is invaluable to me and many other Americans. I make the choice, not the FCC.

It is perfectly understandable that the FCC wants to regulate broadcast radio and T.V. but this is a service that I choose to have and must not be subject to regulation or censorship.
